1. Introduction
   a. Background/Context for required services/results

   Phase II of the regional programme, ‘Implementing Norms, Changing Minds’ aims to end gender-based discrimination and violence against women (VAW) in the Western Balkans (Albania, Bosnia and Herzegovina, Kosovo*, Montenegro, the Republic of North Macedonia and Serbia) and Turkey, with a particular focus on the most disadvantaged groups of women. The Programme is anchored in the normative frameworks of the Convention on the Elimination of All Forms of Discrimination Against Women (CEDAW) and the Council of Europe Convention on preventing and combating VAW and domestic violence (Istanbul Convention)\(^1\), and also in alignment with EU accession standards. The Programme is funded by the European Commission within the Instrument for Pre-Accession Assistance (IPA) II.

   The programme supports the development of an enabling legislative and policy environment on eliminating VAW women and all forms of discrimination; promotes favorable social norms and attitudes to prevent gender discrimination and VAW; and pursues empowering women and girls (including those from disadvantaged groups) who have experienced discrimination or violence to advocate for and use available, accessible, and quality services. The programme channels its interventions through and for civil society organizations (CSOs), and in particular to women’s organizations, with an emphasis on those working and representing women from minorities and disadvantaged groups. Phase II is expected to last eighteen months and will start the day after Phase I of the programme (February 2017 to January 2020) ends.

   During Phase II, the programme will continue its efforts toward, inter alia:
   - Strengthening women’s voice and agency to advocate and support governments in implementing recommendations from the Group of Experts on Action against Violence Against Women and Domestic Violence (GREVIO) report in those IPA beneficiary countries where a report has been issued in Phase I; to produce GREVIO reports in those countries where states and other parties are called to do so; and to support the implementation of CEDAW Concluding Observations through the monitoring of the indicators’ achievement and proposing the required changes in legislation, policies and practices;
   - Consolidating regional level mechanisms of dialogue and exchange among civil society, among governments, and between CSOs and governments;
   - Increasing capacities of service providers from the police, health, education and local government sectors to manage cases related to all forms of VAW, in accordance with the standards of CEDAW and Istanbul Convention; and
   - Fostering cooperation between CSOs providing specialist services and local service providers to ensure accessible and quality service provision for women and girls, in line with Istanbul Convention standards.

   CEDAW is central to the realization of women’s human rights and gender equality. Following constructive dialogue between the CEDAW Committee and the government delegation of Turkey, the Committee has issued its Concluding Observations. These observations refer both to the positive aspects of Turkey’s implementation of CEDAW, as well as to areas of concern where the Committee recommends further action that needs to be taken by the State.

   By ratifying CEDAW, all States parties are obliged to periodically submit reports with an aim to promote compliance with the obligations contained in the Convention. These periodic reports must include a report on what, if any, concrete measures have been taken to implement the Concluding Observations from the previous report. For Turkey, the eighth periodic report must be submitted in July of 2020. In 2018, the CEDAW committee indicated that some recommendations required follow-up. In particular, these issues included the adoption of legislative amendments that explicitly criminalize domestic violence; holding judiciary and protection service providers to account; and the establishment of accessible hotlines for survivors of violence\(^2\). CSOs were instrumental in submitting this information to the Committee.

---

\(^1\) For the European Union, this designation is without prejudice to positions on status, and is in line with UNSCR 1244/1999 and the ICI Opinion on the Kosovo declaration of independence. For UN Women, references to Kosovo shall be understood to be in the context of UN Security Council Resolution 1244 (1999).

It is expected that supporting the production of a shadow report to the CEDAW Committee will contribute to bringing Turkey’s national legal framework and policies in line with its international commitments.

b. General Overview of services required/results

The regional programme, ‘Implementing Norms, Changing Minds’ builds on the strong links of UN Women and the EU with women CSOs in the region, placing the programme in a strategic position to assist women in their drive for their rights as citizens. Civil society, in particular women’s organizations, play a crucial role in the promotion of gender equality and women’s rights. They are also key stakeholders in the provision of services that are essential in the establishment of multi-sectoral and coordinated mechanisms to adequately respond to the needs of victims/survivors of violence. Furthermore, women’s organizations are key stakeholders in ensuring that the perspectives and voices of the most excluded and discriminated against groups of women are heard by policy-makers. Additionally, women’s organizations are instrumental - in terms of their networks, outreach and innovation - to facilitating the required behavioural and attitudinal changes for tackling the structural barriers to gender equality and ending VAW.

These strengths all emphasize the crucial role that CSOs play as key advocacy stakeholders in terms of moving governments from commitment to implementation in relation to international normative standards. Their roles as monitoring bodies, educators, and advocates, as well as their dual understanding both of VAW in Turkey situation of violence against women in the field as well as of international standards and normative frameworks, all give them a unique perspective from which to support and encourage state bodies to live up to their commitments. This central role makes them ideal sources of knowledge and key actors to produce shadow reports for the CEDAW Committee.

In Turkey, women’s organizations are active at local and national levels, though the degree of organizations’ expertise and organizational strengths in networking, policy development, advocacy, outreach and service provision vary amongst CSOs. Through building networking platforms, women’s organizations in Turkey have provided invaluable information to the CEDAW Committee during both reporting cycles and follow-up procedures. During Phase I, the programme supported the capacity building of women’s organizations, including Syrian women’s groups, to monitor and report on CEDAW and the Istanbul Convention. As a result, an action plan was prepared to foster the implementation and monitoring of the Istanbul Convention and CEDAW standards at the local level.

Turkey is expected to submit its State report to the CEDAW Committee by the 31st of July 2020. Following the submission, CSOs will have an opportunity to contribute. In this context, UN Women is issuing a Call for Proposals (CfP) for a responsible party to contribute to the programme Specific Objective 1: To create an enabling legislative and policy environment in line with international standards on eliminating violence against women and all forms of discrimination by strengthening women’s voice and agency to advocate for the development and implementation of laws and policies in line with CEDAW and the Istanbul Convention.

The overall goal of this CfP is to strengthen women’s voice and agency, including with women’s organizations working with and/or representing minoritized women, to advocate for the development and implementation of laws and policies in line with CEDAW Concluding Observations.

The expected result is to ensure a participatory, inclusionary, and comprehensive shadow reporting process for the 8th periodic review of the CEDAW Committee, in which CSOs representing various groups of women in Turkey are consulted, and prominent discussions in the field of gender equality and VAW are wholly reflected.

2. Description of required services/results

With a view to achieving Output 1.1: Women’s voice and agency is strengthened to advocate for the development and implementation of laws and policies in line with CEDAW and the Istanbul Convention, it is expected that the responsible party will, inter alia:

- Draft an outline of a shadow report and brief information on the themes which will be focused in the report;
- Create a roadmap to ensure voices of marginalized women’s/women groups are included;
- Organize roundtables, info sessions and/or digital platforms to collect and analyze data;
- Produce materials and tools to assist the data collection process;
- Produce an assessment report of concluding observations on the seventh periodic report of Turkey, CEDAW Committee’s letter to the State in the frame of follow-up procedure and GREVIO’s baseline evaluation report on Turkey and steps taken by Turkey based on those three documents;
- Produce a shadow report based on Turkey’s eight periodic report to the CEDAW Committee.

UN Women will provide technical, financial (Project Cooperation Agreement) logistical, and organizational support to the selected Implementing Partners. This support will include providing technical guidance, reviewing and commenting on
the materials produced, developing creative ideas and solutions in a participatory environment, supporting monitoring and reporting on results, providing guidance on ensuring sustainability of the action, and fostering dialogue between RP's and other relevant stakeholders in the field.

The selected Implementing Partner will be the principal responsible party but will work closely with UN Women during programme implementation. The partner will provide regular narrative and financial reports in line with UN Women guidelines and requirements.

All knowledge products and communications materials that would be produced under this agreement must acknowledge the support of and seek the approval of UN Women. Furthermore, they should be in line with the EU Communication and Visibility tools and the EU-UN joint visibility guidelines.  

3. **Timeframe: Start date and end date for completion of required services/results**
The project is expected to be carried out within the months of April 2020 and April 2021.

4. **Competencies: [Please elaborate]**
a. Technical/functional competencies required;
   - Rights-based organizations that are legally registered in Turkey and have specialized knowledge and expertise, as well as a track record of working in women’s human rights and ending violence against women (EVAW) programming, including but not limited to: non-governmental organizations, community-based organizations and advocacy networks (at national or sub-national level).
   - Other CSOs that are legally registered in Turkey and have previous experience in a) provision of services to survivors of violence and/or b) engaging with communities on changing gender harmful stereotypes
   - The CSO will be selected only if it has proven capacity to deliver the proposed activity. The CSO’s capacity will be assessed by UN Women as per UN Women’s policies, rules and regulations.

b. Other competencies, which while not required, can be an asset for the performance of services
   - Experience in facilitating the exchange of ideas and dissemination of information throughout Turkey on EVAW and women’s rights will be an asset.
   - Familiarity with UN Women will be an asset.

---

3 All knowledge products and communications materials produced, both by UN Women and beneficiary organizations under the Programme, will acknowledge EC support, and adhere to EU Communication and Visibility tools and the EU-UN joint visibility guidelines. EU visibility requirements will be part of the contract signed between responsible parties and UN Women.

11.2. PHASE II - FINANCIAL PROPOSAL (30 points)

11.2.1. Financial proposals will be evaluated following completion of the technical evaluation. The proponent with the lowest evaluated cost will be awarded 30 points. Other financial proposals will receive pro-rated points based on the relationship of the proponents’ prices to that of the lowest evaluated cost

Formula for computing points:
Points = (A/B) Financial Points
Example: Proponent A’s price is the lowest at $10.00. Proponent A receives 30 points. Proponent B’s price is $20.00. Proponent B receives ($10.00/$20.00) x 30 points = 15 points

12. Preparation of proposal

12.1 You are expected to examine all terms and instructions included in the CFP documents. Failure to provide all requested information will be at proponent’s own risk and may result in rejection of proponent’s proposal.

12.2 Proponent’s proposal must be organized to follow the format of this CFP. Each proponent must respond to every stated request or requirement and indicate that proponent understands and confirms acceptance of UNWOMEN stated requirements. The proponent should identify any substantive assumption made in preparing its proposal. The deferral of a response to a question or issue to the contract negotiation stage is not acceptable. Any item not specifically addressed in the proponent’s proposal will be deemed as accepted by the proponent. The terms “proponent” and “contractor” refer to those organizations that submit a proposal pursuant to this CFP.

12.3 Where the proponent is presented with a requirement or asked to use a specific approach, the proponent must not only state its acceptance, but also describe, where appropriate, how it intends to comply. Failure to provide an answer to an item will be considered an acceptance of the item. Where a descriptive response is requested, failure to provide the same will be viewed as non-responsive.

12.4 The terms of reference in this document provides a general overview of the current operation. If the proponent wishes to propose alternatives or equivalents, the proponent must demonstrate that any such proposed change is equivalent or superior to UNWOMEN established requirements. Acceptance of such changes is at the sole discretion of UNWOMEN.

12.5 Proposals must offer services for the total requirement, unless otherwise permitted in the CFP document. Proposals offering only part of the services/goods may be rejected unless permitted otherwise in the CFP document.

12.6 Proponent’s proposal shall include all of the following labelled annexes:

**CFP submission** (on or before proposal due date):
As a minimum, proponents shall complete and return the below listed documents (Annexes to this CFP) as an integral part of their proposal. Proponents may add additional documentation to their proposals as they deem appropriate.

Failure to complete and return the below listed documents as part of the proposal may result in proposal rejection.

14 **Award**

14.1 Award will be made to the responsible and responsive proponent with the highest evaluated proposal following negotiation of an acceptable contract. Technical proposal submission form

The proponent’s proposal must be organized to follow the format of this CFP. Each proponent must respond to every stated request or requirement and indicate that proponent confirms acceptance of and understands UNWOMEN stated requirements. The proponent should identify any substantive assumption made in preparing its proposal. Any item not specifically addressed in the proponent’s proposal will be deemed as accepted by the proponent. The terms “proponent” refer to those organizations that submit a proposal pursuant to this CFP.

Where the proponent is presented with a requirement or asked to use a specific approach, the proponent must not only state its acceptance, but also describe, where appropriate, how it intends to comply. Failure to provide an answer to an item will be considered an acceptance of the item. Where a descriptive response is requested, failure to provide the same will be viewed as non-responsive. Where a statement of non-compliance is provided, the proponent must indicate its reasons and explain its proposed alternative, if applicable, and the advantages and disadvantages to UNWOMEN of such proposal.

The development of the Technical Proposal must be guided by the evaluation criteria presented below and provide a description of the technical approach, relevance and technical capacity and Governance and management arrangements for the intervention.
