c. UN Women Terms of Reference

1. Introduction

UN Women grounded in the vision of equality enshrined in the Charter of the United Nations, works for the elimination of discrimination against women and girls; the empowerment of women; and the achievement of equality between women and men as partners and beneficiaries of development, human rights, humanitarian action and peace and security. Placing women’s rights at the centre of all its efforts, UN Women leads and coordinates the United Nations system efforts to ensure that commitments on gender equality and gender mainstreaming translate into action throughout the world. It provides strong and coherent leadership in support of Member States’ priorities and efforts and builds effective partnerships with civil society and other relevant actors.

UN Women Egypt Strategic Plan (2018-2022) focuses on promoting gender equality and women’s empowerment in line with the 2014 Egyptian Constitution and relevant international norms and standards. Egypt’s 2018-2022 UN Partnership Development Framework (UNPDF) considers that ‘dealing with issues of women’s social and economic empowerment must be at the forefront of the UN’s support in the economic and social arenas. The Egyptian National Women’s Strategy (NWS) 2030 focuses on four pillars: (a) women’s leadership and political participation; (b) women’s economic empowerment; (c) women’s social empowerment; and (d) protection of women. ‘Changing prevailing cultural norms’ and ‘legislative change’ are included as cross-cutting enablers.

Egypt has made strides in achieving equality, reflected in major gains against the Millennium Development Goals (MDG), notably on maternal mortality and girls’ access to education. At the same time, structural roots of inequality and discrimination against women persist. Unemployment rate among males is 7.2% compared to 22.1% among females\(^1\) (2019). Women’s participation in the labour force is only at 22%\(^2\). Women are unable to fully translate social gains (gender parity in primary and secondary school enrolment) into access to quality jobs, and income security and economic independence.

About the “Women’s Economic Empowerment for Sustainable and Inclusive Growth” programme

UN Women and UNIDO in Egypt are implementing a five-year program titled “Women Economic Empowerment for Inclusive and Sustainable Growth” funded by Global Affairs Canada (GAC). The program aims at reaching 6,300 direct beneficiaries and 30,000 intermediaries. The programme reflects an integrated approach combining both upstream interventions at the policy level and downstream measures directly working with women and businesses to realize each of the three outcomes:

- **Outcome 1100:** Increased productivity and job opportunities generated by women entrepreneurs
- **Outcome 1200:** Increased employment of women by businesses
- **Outcome 1300:** Reduced gender-specific barriers to women’s entrepreneurship and to women entering and remaining in the work force

Upstream activities will include raising awareness of the private sector on inclusive business models to advance both economic and social returns to investment through guidance on the implementation of the Women's Empowerment Principles (e.g. supplier diversity, recruitment and retention, training and career development, promoting safe work places, sexual harassment in the workplace, etc.), promoting uptake and implementation of gender-responsive procurement practices among public and private sector organizations, gender-responsive budgeting and generating critical data and knowledge to support evidence-based advocacy and policy. The project will also strengthen the capacities of women-owned or managed SMEs to become bankable and enhance their soft skills, agency, leadership, as well as provide training to identify new market opportunities in emerging sectors.

---

1 World Bank, 2019
2 World Bank, 2019
Downstream activities will focus on demand-driven value chain and cluster development interventions, including the engagement with large corporations for possible linkages with clusters of entrepreneurs and SMEs as buyers, suppliers or business partners.

The programme interventions aim to achieve the following results:
1. Increased number of new businesses established by women entrepreneurs in the sectors of focus specified in section two of this document.
2. Enhanced capacity of women led businesses to grow, attract and retain workers
3. Strengthened performance of productive clusters to employ more women
4. Enhanced employability of women in growth-oriented sectors
5. Increased abilities of businesses to implement gender-sensitive corporate policies
6. Strengthened individual and collective agency of women in the sectors of focus
7. Enhanced capacity of Government to mainstream gender in public policies and programs
8. Increased access of women entrepreneurs to tailored financial and non-financial services

The programme will be implemented through partnerships with the National Council for Women (NCW), Ministry of Trade and Industry (MOTI) and the Micro Small and Medium Enterprise Development Agency (MSMEDA).

2. Description of required services/results

**Suggested table for evaluating technical proposal:**

11.2. **PHASE II - FINANCIAL PROPOSAL** *(30 points)*

11.2.1. Financial proposals will be evaluated following completion of the technical evaluation. The proponent with the lowest evaluated cost will be awarded 30 points. Other financial proposals will receive pro-rated points based on the relationship of the proponents’ prices to that of the lowest evaluated cost

Formula for computing points:

Points = \( \frac{A}{B} \) Financial Points

Example: Proponent A’s price is the lowest at $10.00. Proponent A receives 30 points. Proponent B’s price is $20.00. Proponent B receives \( \frac{10.00}{20.00} \times 30 \) points = 15 points

12. **Preparation of proposal**

12.1. You are expected to examine all terms and instructions included in the CFP documents. Failure to provide all requested information will be at proponent’s own risk and may result in rejection of proponent’s proposal.

12.2. Proponent’s proposal must be organized to follow the format of this CFP. Each proponent must respond to every stated request or requirement and indicate that proponent understands and confirms acceptance of UNWOMEN stated requirements. The proponent should identify any substantive assumption made in preparing its proposal. The deferral of a response to a question or issue to the contract negotiation stage is not acceptable. Any item not specifically
addressed in the proponent’s proposal will be deemed as accepted by the proponent. The terms “proponent” and “contractor” refer to those organizations that submit a proposal pursuant to this CFP.

12.3 Where the proponent is presented with a requirement or asked to use a specific approach, the proponent must not only state its acceptance, but also describe, where appropriate, how it intends to comply. Failure to provide an answer to an item will be considered an acceptance of the item. Where a descriptive response is requested, failure to provide the same will be viewed as non-responsive.

12.4 The terms of reference in this document provides a general overview of the current operation. If the proponent wishes to propose alternatives or equivalents, the proponent must demonstrate that any such proposed change is equivalent or superior to UNWOMEN established requirements. Acceptance of such changes is at the sole discretion of UNWOMEN.

12.5 Proposals must offer services for the total requirement, unless otherwise permitted in the CFP document. Proposals offering only part of the services/goods may be rejected unless permitted otherwise in the CFP document.

12.6 Proponent’s proposal shall include all of the following labelled annexes:

**CFP submission** (on or before proposal due date):

As a minimum, proponents shall complete and return the below listed documents (Annexes to this CFP) as an integral part of their proposal. Proponents may add additional documentation to their proposals as they deem appropriate.

Failure to complete and return the below listed documents as part of the proposal may result in proposal rejection.

A proposal shall contain no interlineations, erasures, or overwriting except as necessary to correct errors made by the proponent, in which case such corrections shall be initialled by the person or persons signing the proposal.

14 **Award**

14.1 Award will be made to the responsible and responsive proponent with the highest evaluated proposal following negotiation of an acceptable contract. UNWOMEN reserves the right to conduct negotiations with the proponent regarding the contents of their proposal. The award will be in effect only after acceptance by the selected proponent of the terms and conditions and the terms of reference. Technical proposal submission form

The proponent’s proposal must be organized to follow the format of this CFP. Each proponent must respond to every stated request or requirement and indicate that proponent confirms acceptance of and understands UNWOMEN stated requirements. The proponent should identify any substantive assumption made in preparing its proposal. Any item not specifically addressed in the proponent’s proposal will be deemed as accepted by the proponent. The terms “proponent” refer to those organizations that submit a proposal pursuant to this CFP.

Where the proponent is presented with a requirement or asked to use a specific approach, the proponent must not only state its acceptance, but also describe, where appropriate, how it intends to comply. Failure to provide an answer to an item will be considered an acceptance of the item. Where a descriptive response is requested, failure to provide the same will be viewed as non-responsive. Where a statement of non-compliance is provided, the proponent must indicate its reasons and explain its proposed alternative, if applicable, and the advantages and disadvantages to UNWOMEN of such proposal.

The development of the Technical Proposal must be guided by the evaluation criteria presented below and provide a description of the technical approach, relevance and technical capacity and Governance and management arrangements for the intervention.
