TERMS OF REFERENCE (TOR)

I. Background

UN Women, grounded in the vision of equality enshrined in the Charter of the United Nations, works for the elimination of discrimination against women and girls; the empowerment of women; and the achievement of equality between women and men as partners and beneficiaries of development, human rights, humanitarian action and peace and security. Placing women’s rights at the centre of all its efforts, the UN Women leads and coordinates United Nations system efforts to ensure that commitments on gender equality and gender mainstreaming translate into action throughout the world. It provides strong and coherent leadership in support of Member States’ priorities and efforts, building effective partnerships with civil society and other relevant actors.

A key area of concern for UN Women is women’s economic empowerment as expressed in UN Women’s Strategic Plan 2018-2021 as well as in the targets and indicators of the Sustainable Development Goal (SDG) 5 for gender equality and women’s empowerment and of several other SDGs relating to inclusive growth, decent work, ending poverty, reducing inequality, and revitalizing the global partnership for sustainable development.

The WeEmpower Asia programme

The WeEmpower Asia (WEA) programme is a collaborative effort between the Regional Office of UN Women for Asia and the Pacific (ROAP) and the European Union (EU), which is funding the action under its Partnership Instrument. With this programme, the two entities will leverage their joint commitment to enhance women’s economic empowerment globally. They each have longstanding experience and partnerships in the Asian region. UN Women will apply its triple mandate of normative, operational and coordination actions and use its convening power to bring multiple stakeholders together for effective collaboration. EU brings valuable private and public sector partnerships across sectors as well as its solid expertise in trade and economic development.

The overall objective of the WEA programme is that more women lead, participate and have access to enhanced business opportunities and leadership within the private sector to advance sustainable and inclusive growth. The programme will achieve this through three complementary outcome areas to be implemented in seven select middle-income countries (China, India, Indonesia, Malaysia, Philippines, Thailand and Vietnam) in Asia:

- **ADVOCACY:** Women’s networks, public institutions and the private sector will collaborate and share expertise and knowledge to build an enabling business environment for women’s economic empowerment in the workplace and in the marketplace,
- **ENTREPRENEURSHIP:** The capacity of women-owned businesses and women entrepreneurs will be developed to enable them to engage with government and private sector
corporations in policy development and dialogues for advancing women’s economic empowerment, and

- **BUSINESS ENGAGEMENT**: The private sector will be supported to implement gender-sensitive practices and culture within their businesses through the take-up of the Women’s Empowerment Principles (the WEPs – a set of guiding principles to achieve gender equality within companies).

Ultimately, the programme will contribute to the achievement of gender equality through enabling women’s increased participation in the labour force and in the marketplace, improved opportunities for women entrepreneurship and business start-ups, and through strengthening of corporate sector’s commitment and action to ensure gender equality in business culture and practices.

The guiding platform for the programme is the Women’s Empowerment Principles (WEPs), a set of seven principles for businesses offering guidance on how to strengthen gender equality in the workplace, in the marketplace and in the community. The WEPs are jointly developed by UN Women and UN Global Compact and seeking the commitments and concrete implementation by private corporations around the globe [https://weps.org].

The following are the 7 WEPs:

- **Principle 1**: Establish high-level corporate leadership for gender equality
- **Principle 2**: Treat all women and men fairly at work – respect and support human rights and non-discrimination
- **Principle 3**: Ensure the health, safety and well-being of all women and men workers
- **Principle 4**: Promote education, training, and professional development for women
- **Principle 5**: Implement enterprise development, supply chain and marketing practices that empower women
- **Principle 6**: Promote equality through community initiatives and advocacy
- **Principle 7**: Measure and publicly report on progress to achieve gender equality

All businesses stand to benefit from greater equality for women and more than 2500 businesses leaders around the world and 54 in India endorsed WEPs before the onset of WeEmpower Asia Programme [https://www.weps.org/companies].

The WeEmpower Asia Programme in India undertook a desk-based review of existing government and corporate policies and programmes on promoting women’s entrepreneurship and employment in line with WEPs. Out of the existing 54 WEPs signatories, 46 were included in the desk-based review. Out of the 46 signatories, 17 companies were found implementing at least one Women’s Empowerment Principles as per the data available in public domain.

**II. Objective of the Assignment**

The objective of the assignment is to facilitate adoption and implementation of WEPs by existing...
and new WEPs signatories in India.

It is envisioned that the companies will need support throughout the cycle from their first introduction to the WEPs till they have committed and started to integrate changes into their business practice and culture. The ‘WEPs journey’ is expected to have these steps:

- Learning
- Considering
- Signing
- Activating
- Sustaining

The WeEmpowerAsia programme aims to support companies on each step of this journey through knowledge sharing, guidance, and capacity building. This support may be offered to the individual company or a group/ batches of several companies at a time, thereby creating opportunities for joint learning, co-creation and sharing of best practices, and building communities of learning and shared values.

The assignment entails developing a strategy to identify and mobilize companies to adopt and implement WEPs, enable companies to take existing WEPs GAP Analysis Tool, identify capacity building needs outreach and awareness generation around WEPs, dialogues, capacity building trainings and accompaniment support towards implementation of WEPs as well as monitoring and reporting. The assignment entails coordination among partners and stakeholders such as Global Compact Network India, CII, FICCI, NASSCOM and other such industry associations and corporate bodies to leverage their networks and initiatives in mobilizing and engaging with companies for adoption and implementation of WEPs. It will also entail identifying opportunities for policy advocacy to promote gender equality and women’s empowerment in the corporate sector to promote gender equality with existing and new WEP signatories in the private sector.

A two-stage procedure will be utilized in evaluating of the proposals; the technical proposal will be evaluated with a minimum pass requirement of [70%] of the obtainable [700] points assigned for technical proposal. A proposal shall be rejected at this stage if it fails to achieve the minimum technical threshold of [70%] of the obtainable score of [700] points prior to any price proposal being opened and compared. Total number of points: [1000 points]

**Evaluation of financial proposal:**

In this methodology, the maximum number of points assigned to the financial proposal is allocated to the lowest price proposal. All other price proposals receive points in inverse proportion.

A formula is as follows:

\[ p = y \left( \frac{\mu}{z} \right) \]

Where:

- \( p \) = points for the financial proposal being evaluated
- \( y \) = maximum number of points for the financial proposal
- \( \mu \) = price of the lowest priced proposal
- \( z \) = price of the proposal being evaluated
The contract shall be awarded to the proposal obtaining the overall highest score after adding the score of the technical proposal and the financial proposal.

ANNEX 5
FORMAT OF FINANCIAL PROPOSAL

The financial proposal must be prepared as a separate PDF file from the rest of the RFP response as indicated in Clause 3.4.1 of the Instruction to Proposers. The components comprising the total price must provide sufficient detail to allow UN Women to determine compliance of proposal with requirements as per TOR of this RFP. The proposer shall include a complete breakdown of the cost elements associated with each line item and those costs associated with any proposed subcontract/sub-awards (separate breakdown) for the duration of the contract. Provide separate figures for each functional grouping or category.

Estimates for cost-reimbursable items, if any, such as travel, and out-of-pocket expenses should be listed separately.

In case of an equipment component to the service provided, the financial proposal should include figures for both purchase and lease/rent options. UN Women reserves the option to either lease/rent or purchase outright the equipment through the contractor.

In addition, the financial proposal must include, but not necessarily be limited to, the following documents:

1. A summary of the price in words and figures
   i. **Price breakdown:** The price must cover all the services to be provided and must itemize the following:
      a. An all-inclusive fee rate per working day for each expert to be assigned to the team. The fee rate must include remuneration of each expert, all administrative costs of employing the expert and the margin covering the proposer’s overhead and backstopping facilities.
      b. An all-inclusive daily subsistence allowance (DSA) rate (otherwise known as a “per diem rate”) for every day in which the experts shall be in the field for purposes of the assignment.
      c. An all-inclusive amount for necessary international travel and related expenses by the most appropriate means of transport and the most direct economy class practicable route. The breakdown shall indicate the number of round trips per team member.
      d. An all-inclusive amount for local travel, if applicable.
      e. If applicable, other costs required for purposes of the assignment not covered in the foregoing or beneath paragraphs such as communication, printing and dispatching of reports to be produced during the assignment, rental and freight of any instruments or equipment required to be provided by the proposer for the purposes of the services, office accommodation, investigations, surveys, etc.
      f. Summary of total cost for the services proposed.
ii. **Schedule of payments**: Proposed schedule of payment might be expressed by the proposer, and payment will be made by UN Women in the currency of the proposal. The payment schedule must be linked to the delivery of the outputs specified in your technical component.

All prices/rates quoted must be exclusive of all taxes, since the United Nations, including its subsidiary organs, is exempt from taxes.

In case two (2) proposals are evaluated and found to be equal in terms of technical competency and price, UN Women will award contract to the company that is either women-owned or has women in the majority in support of UN Women’s core mandate. In the case that both companies are women-owned or have women in the majority, UN Women will request best and final offer from both proposers and shall make a final comparison of the competing proposers.
